A little known fact...

Eating an apple is a more reliable method of staying awake than consuming a cup of coffee. The natural sugar in an apple is more potent than the caffeine in coffee.

We will hold a moment of silence throughout our facility at 8:46AM in memory of those who lost their lives September 11, 2001

Please be sure to notify staff of any pests or insects you may see so they can be documented in the pest control book located on each unit as well as main office.
